Bhopal/Date 2/1/2013

To

All Drug Manufactures,

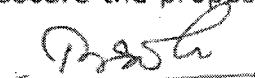

Sub: - WHO-GMP Certification.

As you are already aware that Government of Madhya Pradesh (GoMP) has launched "Sardar Vallabh Bhai Patel Nishulk Aushadhi Vitran Yojna (SVPNAVY)" under which quality generic medicines are being dispensed at all public health facilities free of cost so as to improve accessibility and to reduce out of pocket expenditure of patients.

Improvement in availability & quality of medicines on sustained basis is our prime concern. This would enhance acceptance for generic medicines and you are our valuable partner in this mission.

With an aim to ensure better quality of supplies and to assure public at large about the same, it has now been decided to procure from only WHO-GMP certified facilities with effect from next drug procurement cycle. We will accordingly make WHO-GMP certification mandatory in all our tenders to be floated in year 2013 and thereafter.

We value our relationship and wish to take it forward. If you have not already obtained WHO-GMP certification then you are hereby advised to secure the proposed certification at the earliest and help us in our mission.

(Dr. B.S Ohri)
