Nirman Bhawan, New Delhi  
Dated the 31<sup>st</sup> May, 2018

To  
The Principal Secretaries Health,  
All States/UTs

Subject: Impartial Implementation of Six Months Training Rules, 2014

Sir/Madam,

With regard to the implementation of the Six Month Training Rules, 2014, the undersigned is directed to request that all the States/UTs to ensure impartial conducting of the **Competency Based Test (CBT)** as prescribed under the **Six Months Training Rules, 2014** under the PC & PNDT Act for the "existing Registered Medical Practitioners, who are performing ultrasound procedures in the Genetic Clinics or Ultrasound clinics or Imaging Centres on the basis of one year experience or Six Months Training (Qualification prescribed prior to 2014 under the PC & PNDT Rules, 1996)".

A few States have reported in discussion that practicing doctors with such experience are being failed in the CBT examination. This is allegedly due to Radiologist not allowing the sonologist to clear the Exam/Test.

The States/UTs shall involve the Department of Medical Education in conducting the **Competency Based Test** and the same department should develop the questionnaire for the said exam /Test in consultation with the faculty of all three fields i.e. Obstetrics, Gynaecology and Radiology.

It should also be ensured that the certificate issued for qualifying **Competency Based Test** to the successful candidates should be co-signed by Head of the Department of Medical Education Department and the Chairperson of State Appropriate Authority.

Govt. of India in view of the recent Supreme Court Order dated March 14, 2018 is seeking extension for the time limit provided in the Rules, 2014. Meanwhile the States/UTs should assess the number of such registered Medical Practitioners, who are performing ultrasound procedures in the registered Genetic Clinics or Ultrasound Clinics or Imaging Centres on the basis of qualifications previous to the Six Months Training Rules, 2014 and make necessary arrangements to complete the **Competency Based Test** of all the existing practitioners in a time frame on an urgent basis.

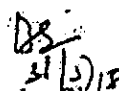

Similarly, arrangements should be made for timely completion of Six Months Training for all those MBBS graduates who have not been registered so far and intend to perform ultrasound/other procedures coming in the purview of PC & PNDT Act/Rules.

PTO

(LCHD30) 1127

Pending the completion of the process of Competency Based Test/Six Months Training Rules, 2014, the States/UTs may ensure, through their Appropriate Authorities <sup>to</sup> ~~can~~ renew registration of existing practitioners with the condition incorporated that the renewal of registration is conditional subject to the outcome of the Competency Based Test/Six Months Training Rules for the concerned Medical Practitioner.

Issued with the approval of the competent authority for necessary action.
